

# Family and Household Support

## Drop In

Drop-in support is a service that can be accessed by people with no need for an appointment; they can seek assistance and support with issues that may be affecting them.

Drop-In does not require a referral to be made, just give us a call or e-mail and quote 'drop-in' to arrange a suitable time to discuss your issues with a member of our team or pop in to one of our Drop in sessions.
