

P3 Home Learning Grid – Autumn Term (until October)

Reading: Try to read for fun for a short while every day. You could read comics, picture books, information books, novels or magazines. Why not make your own special place to read and create a book den! ☐

French: Listen to the fun French Colours song:
https://www.youtube.com/watch?v=yWd_cmCNLE Draw a rainbow with lots of colours and tell someone at home the word in French for each colour. ☐

Numeracy – Practise counting on and back in 2s, 5s and 10s from different numbers. For a challenge try counting in 3s and 4s. Have a go at some of the mental maths games on Sumdog! ☐

Maths: Shape hunt! Look around your house for 3D shapes or look in newspapers or magazines. How many faces does each shape have? Here is a link to help you learn about 3D shapes:
<https://www.bbc.co.uk/bitesize/topics/zjv39j6/articles/zcsjqty> ☐

Social Studies: ask an adult to help you read some food labels in your house. Where does your food come from? Can you find the places on a map? Why not save some of the labels and make a collage! ☐

Writing: Ask people in your house about their favourite foods. Write down what you find out. For example:
My dad likes.....
I think is yummy.
You could draw pictures to match. ☐

STEM: Let's get cooking! Ask an adult to help you make some Scottish shortbread:
https://www.bbc.co.uk/food/recipes/shortbread_1290
Talk about where all your ingredients come from. ☐

Art and Craft: Create a 3D animal out of junk, clay or plasticine, or any other material you wish to use. ☐

Outdoors: Go on an Autumnal walk. Collect bits of nature such as leaves, twigs etc. Can you find out what trees the leaves belong to? Use what you have collected to make a poster by drawing or sticking them down to make a collage. Label the leaves. ☐
